22 Days Penis Extension supports men's physical health and enhances sexual strength, thanks to ingredients such as Tribulus Terrestris. For 22 days, these tablets support the sexual organs and hormone activity. 22 Days Penis Extension provides more sexual power that supports your sexual performance.

How does it work?

The tablets support male physical health and sexual performance thanks to the natural ingredients including Tribulus Terrestris, Saw Palmetto, Siberian Ginseng and Muira Puama. The Tribulus Terrestris plant grows mainly in warm and tropical regions all over the world. Tribulus Terrestris has been used for various purposes in Asia and Bulgaria for years. Tribulus Terrestris supports healthy testosterone levels and helps regulate the concentration of this hormone. Testosterone plays an important role in sexual needs and can have a positive effect on increasing libido. Siberian Ginseng supports the immune system and contributes to more energy and stamina. Muira Puama has been used as a sexual stimulant in several countries all over the world for years. In studies, it has been shown that the use of Muira Puama increases the frequency of sexual desires, intercourse and sexual fantasies. Improvement in sex life satisfaction, intensity of sexual desire, arousal of fantasies, ability to reach orgasm, and intensification of orgasm has also been shown. Saw palmetto is an herb that is known to have a positive effect on the functioning of the prostate. Calcium is important for the maintenance of normal muscle function and nerves.
